Read **Item C** below and answer the question that follows.

Marxist sociologists see capitalism as based on class inequality and the exploitation of the proletariat. They argue that all social institutions help to maintain capitalist society. However, in the Marxist view, the proletariat will ultimately overthrow capitalism and create a classless society.

Critics argue that the traditional Marxist view of society is outdated.

Applying material from **Item C** and your knowledge, evaluate the contribution of Marxist approaches to understanding today's society.
